THE MAYOR'S MESSAGE.

Mayor Caldwell Makes Recommendations to Council.

SOME YERY INTERESTING IDEAS

As to Improvements the City Ough to Have-A New Workhouse, a Hilltop Free Resort, an Improved Wharf and a New Site for the

Cromatory Among Them.

At the regular meeting of the city council last night Mayor B. F. Caldwell presented a paper recommending cer tain things. A city ordinance says the mayor shall from time to time recomnend to council legislation which he thinks is for the public good, but the occasions on which this has been done have been rare in recent years. The mayor's message is worthy of consideration, and touches on several subjects of yital public interest, which will continue to demand attention until some action is taken. The message is given below in full:

To the First and Second Branches of Council of the City of Wheeling:

To the First and Second Branches of Council of the City of Wheeling:

GENTLEMEN:—In accordance with an ordinance of the city of Wheeling I herewith submit to your honorable bodies such recommendations as it seems to me, if adopted, would be for the bost interests of the people.

First, I would respectfully call your attention to the workhouse, which from its first crection was inadequate for the purpose for which it was intended, and to-day is totally unfit for human habitation and should be abandoned, and better quarters provided for the unfortunates who are compelled to do duty within its walls. I would recommend that the committee on police take such action as will in the near future give the city a workhouse that will not such action as will in the near future give the city a workhouse that will not only be a credit to it, but will be also in some respects a reformatory, and self-sustaining, if not a source of revenue. The land we have, and the labor nec-essary to do much of the work is being

sent up every day, and under proper management could be made available for almost the entire work.

The building should be of brick and of ample room and conveniences so necessary for the proper care of the class that is being constantly sent to the institution.

THE WHARP.

Our wharf is inadequate to accommo date the boating interests and should be improved. There is valuable water front that is and has been for a long front that is and has been for a long time a disgrace to the city, being a dumping place for much that should find its way to the crematory. I re-fer to that part between the present wharf and the Pittsburgh, Cheinnati & St. Louis Railroad station, of about 300 feet or more. It should be graded and paved without delay. The city owes it to the boating interest to furnish a land-ing, as at present there are times when ing, as at present there are times when three or more boats lie abreast unload-ing over one another for want of room at the wharf. The necessity for this improvement

The necessity for this improvement will be greater now than in the past, because of the retaining wall of Pittsburgh, Cincinnati & St. Louis road, as a twenty-foot stage of water will give little room on that part of the wharf and the wharfboat will be compelled to drop down quite a distance to get the necessary room to unload fraight. sary room to unload freight.

I would respectfully recommend that the committee on wharves take such action as will utilize the valuable water frontreferred to and give to our people an improvement much needed.

THE CREMATORY. I heartily agree with the committee

on health that the best interests of the city demand another location for the city demand another location for the crematory. It is simply impossible to maintain the building on the present site. It has been rebuilt several times and is now a wreck, and should be abandoned for a more accessible place. I feel sure that quite a large sum could be saved to the city animally by making such change as is contemplated by the health committee: I trust council will give its approval to the proposed improvement, as it will certainly give better service and at much less cost than at present.

THE EAST WHEELING CEMETERY.

THE EAST WHEELING CEMETERY.

I respectfully call your attention to a matter that you may say is an "old chestnut," but I bring it to the front again with the hope that some one may be able to suggest some plan by which there can be a change made in the Sixteenth street graveyard. Its present condition is a public scandal and should o continue

Something should be done to change the place for the better. I would recommend that the city furnish a plat of ground in the Peninsular cemetory of sufficient size to receive the bodies still remaining, and where objection is made by led owners the same shall be made by lot owners the same shall be undisturbed, but the removal to go right on as fast as the owners give their

right on as fast as the owners give their consent.

I am of the opinion that three-fourths of the lot owners who can be found will agree to the change, and the place can be made a public square at but little expense to the city. Lot the work be commenced and it will be but a short time until the place will be an ornament to that part of the city, and every citizen, especially in the East End, will be its guardian.

ABOUT PARKS.

I will not fet the present apportunity.

I will not let the present opportunity pass without calling your attention to our great need of a public park, a free breathing place for our people who are not able, or who, if able, are not willing to go to the present private parks. It is true we have but a limited space

It is true we have but a limited space for a park, but such as we have should be utilized, and it should be done at once. Now is the time to improve Wheeling hill by ferracing and setting trees on all that part of the city's property from opposite Tenth street to such points north as belong to the city, or so much of it as a committee would decide could be improved for park purposes. All cities of any size, and indeed small places have long since realized the importance of parks for the health and pleasure of their people, and Wheeling cannot afford to lag. I can recollect when the top of Whoeling hill was a most delightful resort, and was a natural park, and much of it it could be restored to its natural beauty at little expense.

I therefore recommond that steps be

pense.

I therefore recommend that steps be taken to improve that part of Wheeling hill for park furposes that a committee shall decide may be made available, and that the tree pianting be done this

We must be up and doing so be left in the race. Let us try to make the old place attractive and desirable—make of our city a Greater Wheeling, not by exrending our borders, but by taking care

of what we have.
Chapline and Eoff streets should be

for making an easy grade for reaching the hill top on foot, the crematory re-moved, and the hill top and slope down to the city could be made a delightful place, with a view unsurpassed. The ground is fully 2,000 feet long and would average probably 500 wide down the slope of the hill to the city. By all means give us a park when it can be had so cheaply.

Let Arbor Day be celebrated by the schools alunting trees on our own

schools planting trees on our own Wheeling hill, and the children that engage in it will live to see it one of the finest hill tops in this neighborhood, and at their very doors; besides, it will do away with what is now a most unsightly waste.

The mayer concludes with the re-

The mayor concludes with the re-quest that the various parts of the mes-sage be referred to the appropriate com-mittees, which action was taken after the message had been read.

RIVER FRONT BLOCKADED By Pau-Handle Freight Trains - A City Ordinance Violated.

The river people and also those Islanders who use the ferry in the morning are kicking at the violation of a city ordinance by Pan-Handle freight crews. There is a city ordinance to the effect that street crossings must be kept open, but during the mornings, occasionally, freight trains have blocked off the public landing from access from the river front and kept Islanders coming over from proceeding up town. These trains stretch from the old passenger station at Eleventh street to the freight depot at Fourteenth street, and have, it is alleged, blocked the landing for fifteen and wenty minutes. Yesterday morning three young girls from the Island, who were compelled to be at their places of employment at a certain hour, climbed over the care; a yery dangerous proceeding. Captain Crockard, of the wharfboat, threatened to have the crews of the trains thus blockading the public landing arrested if there is any further violations of the city ordinance. effect that street crossings must be kept city ordinance

A VERY REASONABLE OFFER Made by the Creditors of the Moundsville

M. & M. Company.

The stockholders of the Moundsville Mining and Manufacturing Company held a meeting yesterday to consider the financial condition of the company. James W. White, of Wheeling, was elected chairman and W. W. Smith, of Moundsville, secretary. Over 5,900 shares were represented and quite a friendly feeling provailed. A report from the secretary showed the present condition of aflairs. A resultion for condition of affairs. A resolution for the relief of the indebtedness was offered by the directors of the company. The document showed that they were will-ing to accept any liberal and legitimate plan and had no desire whatever to plan and had no desire whatever to press a foreclosure of the company's property. The resolution was adopted arranging for a sale of lots and allow-ing any stockholder of the company to make purchases from the present time and to the day of sale, and turn in their stock at par to the amount of one-half of their purchase. The days of sale were fixed for June 5 and 6.

A meeting of the directors was hold in the morning, previous to the stockhold-ors' meeting. At that meeting Mr. W. J. Burley, of Moundsville, tendered his resignation as a member of the board. It was accepted and Mr. J. C. Bardall, of Moundsville, was alcaded. It will be and the stock of t Moundaville, was elected to fill the va-

Cure For Headache.

Cure For Headache.

As a remedy for all forms of headache Electric Bitters has proved to be
the very best. It effects a pormanent
cure, and the most dreaded habitual
sick headaches yield to its influence.
We urge all who are afflicted to procure
a bottle, and give this remedy a fair
trial. In cases of habitual constipation Electric Bitters cures by giving
the need tone to the bowels, and few
cases long resist the use of this medicine. Try it once. Large bottles only
fifty cents at Logan Drug Co.'s Drug
Store.

The Pan-Handie Dyeing establishment, owned by John Heilmeier, at No. 1431 Market street, is the best equipped house of its kind in Wheeling. In addition to the dyeing and cleaning departments a corps of first-class tailors are employed, who can do repairing as neat as it is possible. Clothes and ladies' garments, cleaned or dyed, can be made to look like new. Satisfaction guaranteed.

Suith's bottled ale for household use. Purest, best, healthiest.

ROW-On Tuesday, March 12, 1835, at 1:20 p. m., Mary Edda, infant daughter of William and Eunice F. Row, aged 3 months and 17 days. Funeral sarvices at the residence of the parents, rear of No. 91 Eighteenth street, this (Wednesday) afternoon at 3 o'clock. Friends of the family respectfully invited to attend. Interment private at Peninsular Gemetery.
